

THE PERFECT COMPLEMENT

The extensive range of LISTA cabinets enables you to customise and add to your workspace and storage equipment. The high-quality steel cabinets can be easily integrated into a variety of working environments and individually adapted to your specific requirements. They are suitable both for industrial purposes and for storing files and similar items in offices and administrative departments. And of course your personal belongings are always kept safe in a LISTA cabinet.

The right solution for every need

Containers and large-scale pin cabinets*

Firefighter lockers*

Office cabinets*

LISTA hinged door cabinets provide secure and orderly storage for a variety of items. All cabinets can be configured individually and adapted to your specific storage needs through the flexible use of partition materials and cabinet accessories.

ALWAYS WITH LISTA

Choice of colours

12 standard colours, all other colours available; see p. 22

Intelligent locking systems

Replaceable cylinders which can be fitted to existing locking systems, electronic locking systems via CODE and RFID Lock for absolute security made to measure; see p. 28

Individual configuration options

in size, equipment, locking system, colour and drawer partitions; see p. 10

Utmost stability

with housing load capacity of up to 500 kg

High load capacities

load capacity of 60 kg or 100 kg per adjustable shelf, 60 kg per drawer/pull-out shelf

Well protected

protection from dirt, liquids and physical loads thanks to closed housing with impact-resistant and abrasion-resistant surface

Flexible configuration options

with covers, perforated panels, suspension folder pull-outs, desk mounts and clothes rails

Optimum order and organisation

with optional installation of drawers and pull-out shelves for clear and orderly storage of small parts (for a cabinet depth of 580 mm)

Perfectly organised

with viewing windows made from UV-resistant, shatterproof acrylic

Secure locking

with solid sheet or viewing window doors (flush-fitting, folded from one piece) and intelligent locking systems

Can be adapted to new storage items at any time

with the flexible integration and rearrangement of drawers, pull-out shelves and adjustable shelves in increments of 25 mm

Hinged door cabinets

Depending on the model, the cabinets on these two pages are equipped with: adjustable shelves, galvanised, 30 mm thick, load capacity 60 kg. Pull-out shelves and drawers, painted, anthracite grey, RAL 7016, load capacity 60 kg. **Note: Cabinets with drawers and pull-out shelves come with floor anchoring as anti-tilting device.**

i Suitable labels for partition material

The practical clip-on label holders are fitted directly onto the metal separators.

» Labelling system
see p. 268

Note: the front height corresponds to the drawer front height. For the actual height of the partition material see p. 262–265. Partition material sets excluding clip-on label holder.

Cabinet housing

The housings of the hinged door cabinets are made from high-quality sheet steel and are available with specifications for one or two hinged doors, with or without a fixed partition. The inside fittings of the cabinet are easy to customize thanks to the 25:25 mm divisions.

Hinged doors

The hinged doors in solid sheet or with a viewing window are folded from one piece, flush-fitting and flush with the cabinet housing. The doors can be equipped with hinges, with an opening angle of approx. 115°. The hinged doors can be equipped with a KEY Lock, a CODE Lock or an RFID Lock as desired.

Clasp locks

The standard KEY Lock locking system with replaceable cylinders makes it easy to adapt to existing locking systems. With CODE Lock, the key is replaced by a simple numeric combination. The LISTA RFID Lock enables automatic and contactless locking through radio frequency identification.

When space is limited, sliding-door cabinets from LISTA are the ideal solution for your storage items. Because the smooth-running doors remain in the housing and do not jut out into the traffic area.

Utmost stability

thanks to housing with a load capacity of 500 to 950 kg (as from a width of 1500 mm)

Perfectly smooth running

since the sliding doors are equipped with high-quality, smooth-running and quiet runners

Benefits of LISTA cabinet systems

Sliding-door cabinets

Depending on the model, the cabinets on these two pages are fitted with: adjustable shelves, galvanised, 30 mm thick, load capacity 60 kg, pull-out shelves and drawers, painted, anthracite grey, RAL 7016, load capacity 50 kg

**Slotted adjustable shelves**

Adjustable shelves including 4 shelf supports. Specification: steel sheet, galvanised, slotted. Long sides folded by 4 × 90°. 30 mm thick with load-bearing capacity of 60 or 100 kg.

**Dividers for adjustable shelves**

For subdividing adjustable shelves. Specification: steel sheet, painted. Colour: light grey, RAL 7035.

**Drawers and pull-out shelves**

Full extension with ball bearings, including guide rails. Load capacity 50 kg. Specification: steel sheet. Colour: anthracite grey, RAL 7016. **For cabinet depth 580 mm.**

**Base**

Robust steel tubing construction 40 × 40 mm, closed side panels, incl. fastening material (screw connection between cabinet and base). Optional: base cover to be attached as a cover on the front or rear. Colour: Anthracite grey, RAL 7016.

Cabinet systems | Wall-mounted cabinets with hinged or sliding doors

Utmost stability

thanks to housing with load capacity of 40 to 80 kg

Optimum order and organisation

thanks to adjustable shelves with load capacities of up to 40 kg for neat and tidy storage of tools, files and other equipment

User-friendly

since the stored items are easy to reach and at viewing height

Perfect cable management

with cable openings and intermediate shelf for tidy and well-protected cable routing

Flexible configuration options

thanks to pre-perforated holes (punch-outs) as cable guide for power strips and LED lights

Benefits of LISTA cabinet systems

see p. 168

LISTA wall-mounted cabinets are perfect as additional storage space for small parts, documents and more. They keep your storage items ergonomically and conveniently stored at viewing height. Just mount them on the wall and in no time everything is just where it should be: neatly put away.

Art. no. **69.861.200**

Adjustable shelf for wall-mounted cabinet

Width: 1000 mm.
Load capacity: 40 kg.

Art. no. **69.883.XXX**

Cover flap set

Custom-fit flap and cable collar for punch-outs.
Delivery: 2 hinged flaps.
1 cable collar

Art. no. **69.869.000**

Clasp lock KEY Lock

- standard locking system for hinged doors with replaceable cylinders
- makes it easy to adapt to existing locking systems

Lock-down cylinder lock / KEY Lock

- locking system for sliding doors
- cannot be prised out thanks to the right-angled bar

Extremely smooth running

- the ball bearing rollers of the sliding doors run quietly on the guide rails

Cable feed-through

- punch-outs allow the cabinet to be provided with a power supply, see p. 147
- punch-outs are present on the lid and base
- there is space for cable routing underneath the shelf

Flexible configuration and organisation

thanks to perforated and slotted rear panels, individually configurable with optional adjustable shelves or integrated cable conduit

User-friendly operation

Aluminium roller shutters with spring-loaded coils: self-locking, effortless operation. Optimum use of space with a continuous usable depth of 215 mm

Versatile

also available as top-mounted cabinet without a base for direct mounting onto the worktop, see p. 121

Benefits of LISTA cabinet systems

see p. 168

LISTA wall-mounted shutter cabinet for optimal tool storage. The cabinet can be custom-adapted to your needs with optional accessories such as an adjustable shelf or power conduit.

Wall-mounted cabinet with aluminium roller shutters

This type of cabinet is ideal for securely hanging tools. The space-saving roller shutter winder gives a maximum usable depth of 215 mm and also allows the use of standard folders. In addition, this cabinet can optionally be equipped with an integrated cable conduit to accommodate the energy modules (see p. 145). For direct fastening to the work-top, this cabinet (1050 mm high) can also be ordered without a floor (see p. 121).

Art. no. **69.851.200**
Wall-mounted cabinet with aluminium roller shutters, RAL 7016

Roller shutter cabinet

Aluminium roller shutter with spring-loaded winding ensures a large usable depth (215 mm) and safe operation (self-locking). The sturdy steel housing and the aluminium roller shutters ensure stable, secure storage. Punch-outs intended for power supply. Perforated rear panel for using perforated wall hooks (see p. 163), with square perforation 10 × 10 and 38 mm divisions.

Power conduit set			
Integrated cable conduit solution. Designed for installation in roller shutter cabinet. The power conduit can be equipped with the power modules. see page 145	1500	6 ×	89.022.XXX
	2000	8 ×	89.023.XXX

Housing

- Sturdy steel structure
- Version with shelf as an overhead cabinet or alternatively without a shelf as an top-mounted cabinet, see p. 121

Handle

- Integrated handle
- Locking mechanism has no impact on usable depth
- Locking with KEY lock, keyed alike option also possible on request

Power conduit

- Optionally integrated power conduit
- Configurable with power modules (see page 144)

Adjustable shelf

- Optional adjustable shelf
- Adjustment increment: 25 mm

Cabinet systems | Roller shutter cabinets

LISTA roller shutter cabinets give you full access to your stored items even in confined spaces. And the individual configuration and equipment options mean that they are right for a wide variety of workplaces from workshop to office.

+ Utmost stability

with housing load capacity of up to 500 kg

+ Secure locking

thanks to the smooth-running roller shutters with user-friendly push handle and integrated cylinder lock with replaceable cylinders (other locking systems on request)

+ User-friendly

roller shutter stops at any height without the need for catches

>> Benefits of LISTA cabinet systems

see p. 168

Roller shutter cabinets

Depending on the model, the cabinets on this page are fitted with: adjustable shelves, galvanised, 30 mm thick, load capacity 60 or 100 kg, pull-out shelves and drawers, painted, anthracite grey, RAL 7016, load capacity 50 kg, roller shutter in PVC, colour similar to light grey, RAL 7035

Roller shutter cabinet

Hinged door cabinet

Art. no. **58.401.010**
Light blue, RAL 5012

Direct access to all stored items

The smooth-running roller shutter which can be operated with one hand stops at any height without the need for catches.

Strike plate

The sturdy metal strike plate comes with an anti-trap finger guard for safety reasons.

Push handle cylinder lock/ KEY Lock

The replaceable cylinder makes it possible to adapt the locking system as required.

Cabinet systems | Vertical pull-out cabinets

- 
- + Utmost stability**
with a housing load capacity of up to 1000 kg
 - + High load capacities**
vertical pull-outs with a load capacity of up to 200 kg
 - + Perfectly smooth running**
can be fully extended on smooth-running plastic runners even with heavy weights off-floor
 - + Outstanding safety features**
through standard single-drawer blocking system
 - + Secure locking**
thanks to front covers or hinged doors with KEY Lock including replaceable cylinders (other locking systems are available on request)
 - + Flexible configuration options**
with adjustable shelves, perforated panels and shelves for tool holders for NC storage in increments of 50 mm
 - + User-friendly**
with direct access to tools and small parts from both sides
 - + Well protected**
protection from dirt, liquids and physical loads thanks to closed housing with impact-resistant and abrasion-resistant surface

Vertical pull-out cabinets from LISTA provide space-saving storage for tools, supplies and more where space is at a premium. The pull-outs can be used from both sides and can optionally be fitted with perforated panels or shelves to hold plastic containers, tools, documents and LISTA tool holders for NC storage. The result: maximum storage space with a very small footprint. That's what we call efficient.

Art. no. **85.799.010**
Fronts light blue, RAL 5012
(excluding storage containers)

Vertical pull-out cabinets

Depending on the model, all cabinets on this page are equipped with: front covers 3 × W 307 mm, 4 × W 230 mm, pull-outs with a load capacity of 200 kg, perforated panels with square holes 10 × 10 mm, 38 mm apart

Art. no. **85.789.050**

- either made of solid sheet steel or equipped with viewing windows
- with pin hinge, opening angle approx. 115°
- Lock with KEY, CODE or RFID Lock

i When ordering a cabinet from these two pages with **CODE** or **RFID Lock**, please add the suffix "**C**" or "**F**", respectively, to the article number stated in the table (e.g. **98.081.XXX.C**).

Roller shutter

- especially suitable when space is limited
- stops at any height without the need for catches
- aluminium colours, colour of strike plate variable
- KEY Lock locking system

» For partition material sets and labelling system see p. 248.

i Tilt protection is ensured by the multiple pull-out lock; only applies to retracting doors.

Drawers

Drawers with different front heights can be incorporated into the same housing in any order. The insides of the drawer walls are all fitted with a slotted grid in units (E) of 17 mm so that each drawer can be partitioned as required. Colour: grey, NCS 4502-B.

Pull-out shelves

For storing heavy individual items and equipment. Perfectly fitting, variable height assembly of 25 × 25 mm in the cabinet housing. The inserted slats enable stored items to be stored and removed flush with the handle. Specification: steel sheet. Colour: grey, NCS 4502-B. Slats are made of shaped sheet steel profile, sendzimir galvanised.

Adjustable shelves, slotted or plain

Adjustable shelves including 4 shelf supports. Adjustable shelf, slotted, **fitting against the rear**. Specification: steel sheet, galvanised. Long sides folded 4 × 90°. Slotted partition; 50 mm. Load capacity: 160 kg.

Dividers for adjustable shelves

Slotted for separating 2 adjustable shelves attached one above the other. The height of the dividers depends on the distance between the adjustable shelves. Specification: steel sheet. Colour: light grey, RAL 7035.

Base

Robust steel tubing construction 40 × 40 mm, closed side panels, incl. fastening material (screw connection between cabinet and base). Optional: base cover to be attached as a cover on the front or rear. Colour: Anthracite grey, RAL 7016.

Clothing lockers from LISTA offer impressive functionality and a wide variety of equipment options.

This makes them suitable for use in a wide range of locations from workshop to sports hall and they also offer secure, flexible and ideal storage in accordance with DIN 4547-2011.

Utmost stability

thanks to hinged doors with the pin on the right and with reinforcement pocket for greater protection against burglary (DIN 4547)

Sophisticated ventilation

with air vents at the top and bottom of the housing

Optimum hygiene

thanks to plain compartment shelves without raised edge to make it easier to clean the compartments thoroughly

Practical interior fittings

with hat rack, towel holder and clothes rail with three sliding coat hooks for each compartment

Individual equipment options

such as housing with an inclined top, double compartments, benches or ventilation ducts for on-site forced ventilation

Secure locking

with KEY Lock locking system, rotary knob safety lock or closing device for padlock (CODE/RFID Lock and other locking systems on request)

Protection from dirt and corrosion

with bases or legs that are galvanised in addition to being powder-coated. Protect against corrosion, cover with a base also protects against dirt

Art. no. **94.424.080**
Pigeon grey, NCS S 4502-B

Clothing lockers

Bench base for in-line installation on request

Upon presentation of a layout plan, the bases are available at **little cost** for single- and/or double-sided construction in a row. In addition, less cleaning is required thanks the small number of leg supports.

Double-sided base, height 400 mm with shoe racks

LISTA compartment cabinets are ideal for storing personal items of all kinds. Whether in industry, trades, office and administration, or leisure and sport: a variety of locking systems makes the cabinets easily adaptable to the respective security requirements of any location.

Utmost stability

thanks to hinged doors with the pin on the right, rolled on all sides, with curved surface

Sophisticated ventilation

with air vents at the top and bottom of the door

Secure locking

with KEY Lock locking system or locking mechanism for padlock (CODE/RFID Lock and other locking systems on request)

Clearly labelled

thanks to embossed label frame

Protection from dirt

thanks to substructure with base to prevent dirt from accumulating under the locker

Art. no. **11.527.050**
Metallic grey, NCS S 6502-B

Art. no. **11.529.010**
Light blue, RAL 5012

Compartment doors

Different compartment doors, e.g. with viewing windows or mail slot, on request

Inclined top part

An inclined top part prevents the cover from being used inadvertently as shelf space and reduces required cleaning.

Ventilation slots and label frames

The high-quality solid sheet doors provide very high stability and are also equipped with a label frame. Air vents at the top and bottom provide ideal ventilation.

Versatile locking systems

cylinder locks, numeric combination locks, coin deposit locks, locking systems for padlocks and master key systems are available. Other locking devices such as CODE/RFID Lock on request.

i Ordering information

When ordering a compartment cabinet with **closing device for a padlock**, please specify the suffix **"V"** or, for a **rotary knob safety lock**, the suffix **"D"** in addition to the article number from the table (e.g. **11.525.XXX.V**).

COLOURS: With preconfigured cabinets housing in light grey, RAL 7035.

LISTA battery charging cabinets with hinged doors are perfect for the centralised supply of batteries and electrical devices. All cabinets can be configured individually and adapted to your specific storage needs through the flexible use of partition materials, cabinet accessories and power supply by means of power strips.

+ Flexible range of applications

Charging options for battery-operated electrical machines, BDE devices, notebooks, tablets and smartphones

+ Perfect cable management

Cable openings for protected and orderly cable routing

+ Outstanding safety features

CE compliant

+ Secure locking

Devices are locked away at all times, and are protected against unauthorised use and with intelligent locking systems such as CODE/RFID Lock.

>> Benefits of LISTA cabinet systems

See p. 168

Battery charging cabinets with hinged doors

Depending on the model, the cabinets are equipped with **adjustable shelves**, galvanised, 30 mm thick, load capacity 60 kg. Painted **drawers**, anthracite gray (RAL 7016), load capacity 50 kg. **Power strips** with on/off switches and 4 or 5 sockets, 230 V.

RCD/MCB

RCD = residual current protective device (16 A)
MCB = miniature circuit breaker (CH = 10 A, D/F = 16 A)

Quantity	Art. No.
1 piece	57.101.000

i Intermediate coupling required
to connect RCD to power strip, art. no. **89.552.000**.

LED cabinet lighting

12 V LED lighting for cabinet height 1950 mm. Installed at the front right of the cabinet. Consisting of 1 LED light each, length: 800 mm (9W) and 500 mm (5W), integrated motion detector requires 1 free slot in one power strip.

Art. No. **57.463.000**

Flexible range of applications

Charging options for battery-operated electrical machines, BDE devices, notebooks, tablets, smartphones or e-bikes

Sophisticated ventilation

Optimal air circulation thanks to ventilation holes at the front and back

Great design diversity

With sockets, network sockets RJ45 and USB interfaces

Outstanding safety features

CE compliant

Secure locking

Devices are locked away at all times, and are protected against unauthorised use and with intelligent locking systems such as CODE/RFID Lock

Benefits of LISTA cabinet systems

See p. 168

LISTA compartment cabinets with power connection are perfect for personal storage of battery-operated devices of all kinds. Suitable for use in industry, trade, offices, schools, universities or public buildings. Batteries can be charged during storage thanks to the built-in double sockets, and are therefore always ready to use.

Art. no. **98.409.020**
Light grey, RAL 7035

Art. no. **98.416.070**
Ruby red, RAL 3003

Versatile locking systems

- Cylinder locks, numeric combination locks, coin deposit locks, locking systems for padlocks and master key systems are available

i When ordering a cabinet from this page with **RFID Lock**, please add the suffix **"F"**, respectively, to the article number stated in the table (e.g. **98.409.XXX.F**).

Doors with viewing windows

LISTA clothes lockers and laptop cabinets with power outlets are perfect for personal storage of battery-powered devices of all kinds, whether in industry, trade, offices, schools, universities or public buildings. Batteries can be charged during storage thanks to the built-in sockets and are therefore always ready to use.

+ **Utmost stability**

thanks to hinged doors with the pin on the right and with reinforcement pocket for greater protection against burglary (DIN 4547)

+ **Sophisticated ventilation**

with air vents at the top and bottom of the housing

+ **Optimum hygiene**

thanks to plain compartment shelves without raised edge to make it easier to clean the compartments thoroughly

+ **Practical interior fittings**

with hat rack, towel holder and clothes rail with three sliding coat hooks for each compartment

+ **Secure locking option**

with KEY Lock locking system (CODE/RFID Lock and other locking systems on request)

+ **Protection against corrosion**

with base that is galvanised in addition to being powder-coated

+ **Flexible range of applications**

with charging options for battery-operated BDE devices, laptops, tablets or smartphones

+ **Battery charging cabinet for electric scooters**

with additional ramp in front of the base

+ **Outstanding safety features**

CE compliant

Power modules for laptop cabinet

Socket strip can be ordered with one or two 230 V sockets per compartment.

USB adapter for sockets

1 x USB-C connection, 3 x USB-A connection
Overcharge, deep discharge, overload and short-circuit protection Colour: Black

Art. no. **61.257.000**

When ordering a laptop cabinet on this page with **CODE/RFID Lock**, please specify the suffix **"F"** in addition to the article number from the table (e.g. **98.600.XXX.F**)

Thanks to its high resistance to light and weathering, the LISTA e-bike charging station is ideally suited for the central supply of batteries for outdoor use. Each compartment has a power module with two fused sockets. In addition to business and public authorities, schools, universities, airports, restaurants, cafés, hotels and other public buildings can also be equipped with the e-bike charging station for outdoor use.

+ Utmost stability and convenience

thanks to welded sheet steel housing made of electrolytically galvanised sheet steel and double-walled doors with opening limiter and self-closing function

+ Well protected

thanks to high-quality polyester resin powder coating with high light and weather resistance, cabinet housing and electrical components protected against splashes (IP44 in accordance with DIN EN 60529), inclined top with front projection as rain protection

+ Perfect cable management

thanks to 230V socket with cover, FI/LS switch for each compartment, power supply via ground cable, access in base in spray water-protected distribution box (IP65), roof and left side panel removable as inspection opening (screwed), inspection opening in lower compartment incl. distributor box in base area

+ Sophisticated ventilation

thanks to integrated heat ventilation conduit and passive ventilation in each compartment

+ Outstanding safety features

CE compliant

+ Secure locking option

with security cylinder lock, coin deposit lock or cashier lock (other locking systems available on request)

LISTA environmental and oil cabinets are suitable for the safe and standard storage of water-hazardous substances in water hazard class (WGK) 1–3. Liquids that are required in the daily work flow are stored safely in LISTA oil cabinets. Pull-out shelves hold the liquid canisters. Drops of liquid are collected in the drip tray.

Maximum stability

with housing load capacity of up to 500 kg

High load capacities

Drip trays with a load capacity of up to 100 kg and canister shelves up to 200 kg

Can be adapted to new storage items at any time

by inserting or converting drip trays and canister shelves in 25-mm increments as required

Individual equipment options

with drip trays, canister shelves, base trays, canisters and drawers

Safe and orderly storage

with drip trays welded to form a liquid-tight seal according to Section 19 of the Water Resources Act/German directive on steel trays (StawaR).

Secure locking

with solid-sheet doors (flush-fitting, folded from one piece) and selectable locking systems

Sophisticated ventilation

with perforated field at the top and bottom of environmental lockers

Equipment	 kg	Door storage		Art. no. 
4 drip trays Tank dimensions: 982×445×70 mm (W×D×H)	100	Hinge	KEY Lock	60.474.XXX

Observe legal regulations and directives

The canisters may only be filled with acid- and lye-free liquids (no abrasive media), oils and grease with a flame point above 55° Celsius. Maximum ambient temperature 40° Celsius. Please call us for special applications and further information.

Note:
Not suitable for storage of flammable materials

Canister shelf

The canister shelf has a handle on the left and right and a centre lip. It is only 27 E (451 mm) deep so there is enough room in the front area for the canister tap.

Built-under drainage tray for oil cabinet

The built-under drainage tray of the oil cabinet has a leak-proof welded construction according to the Water Resources Act Sec. 19/StawaR (German directive on steel trays) and has a test certificate. It has a volumetric capacity of 40 l.

Art. no. **14.995.000**

Drip trays

The drip trays feature a leak-proof welded construction according to StawaR (German directive on steel trays) and have a test certificate.
